Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Air and Radiation, will conduct a public hearing at 10 a.m. Tuesday, March 10, in the Johnson County northeast offices, 6000 Lamar, Room C, Mission, to consider the adoption of proposed amendments to existing air quality regulation K.A.R. 28-19-70 and the adoption of proposed new K.A.R. 28-19-564. K.A.R. 28-19-70 applies to gasoline delivery vessels operating in Wyandotte and Johnson counties. Proposed new K.A.R. 28-19-564 applies to certain stationary sources throughout the state that are required to obtain operating permits. A summary of the proposed amended and new regulations and their economic impact follows.

K.A.R. 28-19-70. This regulation establishes controls on emissions of volatile organic compounds (VOCs) from gasoline delivery vessels (GDVs) operating in the previously designated ozone nonattainment areas in Wyandotte and Johnson counties. VOCs are precursors of ozone formation in the lower atmosphere. One requirement of this regulation is that GDVs must be tested annually for leaks of VOCs. The proposed revisions would expand the time period for this testing from May 1 through July 1 of each year to January 1 through May 31 to facilitate compliance. The existing period for testing is too short given the number of GDVs operating in the area relative to the number of testing facilities. Additional changes to the regulation are made to improve grammar, organization, and other elements of the regulation.

K.A.R. 28-19-564. This proposed new regulation establishes a permit option for qualifying stationary sources that do not emit air pollutants at a level greater than specified percentages of the major source threshold, are willing to limit their emissions to a level less than those percentages, and that submit an application pursuant to this regulation. Sources subject to the operating permit requirements that elect to operate under an authorization issued pursuant to this regulation will benefit through reduced paperwork burdens, while limiting emissions to levels having minimal significance for air quality in the state.

The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed regulatory action. All interested parties may submit written comments prior to the hearing to Ralph J. Kieffer, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620. All interested parties will be given a reasonable opportunity to present their views orally on the proposed regulatory action during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to require each participant to limit any oral presentation to five minutes.

Copies of the proposed regulations and the economic impact and environmental benefit statements may be obtained by contacting the Bureau of Air and Radiation at (785) 296-1550. Questions pertaining to these proposed amendments should be directed to Ralph J. Kieffer, (785) 296-6428, or to Gary Miller, (785) 296-1547.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and the economic impact and environmental benefit statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Rob Bradford, (785) 296-1587.

All interested parties may submit written comments prior to the hearing to George Teagarden, Livestock Commissioner, 708 S.W. Jackson, Topeka, 66603. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting George Teagarden at (785) 296-2326. There is no designated handicapped parking on the block. Passengers can unload in the loading zone directly in front of the office. The office is at street level and is wheelchair accessible.

Summaries of the proposed regulations and their economic impact follow.

Article 7.—MOVEMENT OF LIVESTOCK INTO OR THROUGH KANSAS

K.A.R. 9-7-10. Livestock for exhibition purposes. The amendment to K.A.R. 9-7-10 exempts rodeo stock from the normal requirements for livestock moved into the state for exhibition purposes. This regulation primarily addresses animals brought into the state for livestock shows. These animals may be brought in with a health paper showing the animal has met importation requirements for that particular species. Rodeo stock, which move between states, have more stringent entry requirements. The proposed amendment is not expected to have an economic impact on the department, the public or other state agencies.

Article 10.—PUBLIC LIVESTOCK MARKETS

K.A.R. 9-10-33 through 9-10-39. Livestock injured, disabled or unfit for sale. Definitions, notice, procedures, diseases or condiitons that shall render livestock unfit for sale at public livestock markets, injuries that shall render livestock unfit for sale at public livestock markets, euthanasia and disposal of euthanized carcasses. These regulations implement L. 1997, ch. 129, Sec. 2(e), which requires the livestock commissioner to promulgate rules and regulations necessary to enforce amendments to K.S.A. 47-1008 that prevent the sale of dying, diseased or disabled livestock at livestock markets.

K.A.R. 9-10-33 through 9-10-39 establish guidelines for examining, refusing or euthanizing livestock that are injured, disabled or unfit for sale. The regulations require every operator of a public livestock market to post and maintain signs that provide public notice regarding the examination of injured, disabled or unfit livestock by the market veterinarian and the veterinarian and the owners' responsibilities under the Act. The regulations set out specific diseases and injuries which render livestock unfit for sale at public livestock markets, establish euthanasia guidelines and address disposal of euthanized carcasses. The regulations give the examining veterinarian discretion to decide whether the animal will be sold, removed from the livestock market or euthanized. The veterinarian must make a reasonable attempt to contact the owner by phone or in person to discuss the disposition of the owner. If the owner does not remove the animal within 14 hours, the veterinarian may euthanize the animal.

There will be no cost to the agency, other governmental agencies or consumers. Private citizens who have dead, dying or diseased animals will no longer be able to sell these animals at the livestock markets. They will still be able to ship the animal directly to slaughter, should they wish to do so. Producers with animals that are euthanized will be required to pay for the cost of euthanization and disposal of the animals.
